

MEET THE -HUBB TEAM

We are a team of young professionals with backgrounds in food delivery, tech, and Michelin restaurants, on a mission to improve your takeaway experience and bring extra flavor to the Copenhagen food scene.

Welcome to Hubb Kitchens!

STATE-OF-THE-ART KITCHENS

We customized and enabled our **kitchens with state-of-the-art technology** so our staff can prepare your food quickly and efficiently. However, it goes far beyond the equipment and tech!

Our culinary team dove deep into developing the perfect recipes and selecting quality ingredients that withstand the delivery process. The delicious results of their work are **under 30 minutes** away from you!

Visit our first four virtual restaurants, and we'll take you on a gastronomic journey filled with juicy burgers, crispy fries, filling salads, spicy fried chicken, and a Japanese street food favorite - **all available to mix in the same delivery order.**

Hen & Chicks

SOFT, GROOVY BUNS

Shows your mind and taste buds made developed by our culinary team. It's that got away!

KAMA-KURA

HAVE A TASTE OF JAPAN

A Japanese street food favorite making its way around the world! The Katsu Sando, translated to cutlet sandwich, has a simple name and recipe but is rich in flavours.

MARBEN

BUTCHER'S DREAM

Premium hand-sorted beef curated by our local butcher, combined with fluffy brioche buns and high-end ingredients. A pleasure to introduce the Marben burgers.

VIRTUAL RESTAURANTS, VIRTUAL KITCHENS

A **virtual restaurant** is a restaurant that has its own concept, cuisine type, and menu but does not serve customers in a physical location. Instead, the food can be ordered through online platforms and is available for delivery only.

A **virtual kitchen** is a kitchen where one or more virtual restaurants have their takeaway food prepared. These kitchens are optimized for delivery, which allows their staff to offer a higher quality takeaway delivered in a shorter time.
